

# Invitation

European Networking Event  
for Women Architects and Planners  
from 14.- 16. June 2019 in Hamburg

Dear colleagues!

Under the heading **AUF KURS / on course** female planners, engineers and architects from different european countries are going to meet for knowledge sharing and networking during Hamburger Architektur Sommer 2019.

During the public symposium we want to examine the future challenges of digitisation in the planning professions.

We are looking forward to open the travelling exhibition of DAM (Deutsches Architekturmuseum Frankfurt) in the Museum der Arbeit (museum of labour).

Moreover, we invite the participants to experience contemporary architecture in Hamburg.

Continueing our sucessful meetings in the past few years, it is our target to intensify our networking in Hamburg, develop new ideas and promote cooperation.

Best regards from Hamburg  
The organizers
